### THE SARAHU PSYCHOLOGY TREATMENTS, CASES STUDY OF PATIENTS

Sarahu Nagarazan

Designation: Psychologist, Geologist, Astronomer, Physicist and Biologist

Department: Psychology

Institute: Sarahu International Space and Bio Research Administration© and Lord Sarahu Monastery

---

#### Abstract:

**2019 Result:** Every day 100 to 150 people are coming with problems to seek the guidance or solution with us (Sarahu). In the span of 5 years people who are coming to the Sarahu are 88% of people having Infertility and physically handicapped, science of Architecture (dwelling), marriage proposals, mental illness, depression etc... In the span of 5 years continuously and radically are observed the above problems and find the will be reason behind this? In this period I can concluded that the reason was the demonic, serpents and genes are main root cause of the above problems. By this way in the period of 5 years did the experiment over 1 lac of people and sort out their issues with organically. Here are the few examples of the people how we gave the solution to the people.

#### Introducing:

#### “Auto - Suggetion”

What is mental science we should understand first! Otherwise man becomes the culprit of mental science. Therefore mental science has become as specialized mental education. Mind means human being. Intelligence means Sanity. ‘V’ means special, ‘Knowledge’ is special knowledge. Means ‘Science’. Science cannot be interpreted only for science. Every knowledge can be called as science. Astrology, Soul, Literature and Medical etc in such other special knowledge the word science can be used. But basically psychology gives birth from his activity. After his experience. The man should satisfactorily conclude it. Till such period none should poke is head towards psychology. Otherwise his bundle wit becomes useless. Man whatever thinks and plans it is by his inherent knowledge. This mental science is a special knowledge. That means powerful tool. And sharp spirit. This psychology gave birth from planets. Also mind is created by the influence of planets. The moment the baby comes to the earth as per the planets influence mind is created in three ways. After the mind is expands its illusion goes on increasing its power. But intelligent man will not neglect it. That fellow studies the whole thing deeply comes to a conclusion which is wrong and which is right. And then he proceeds towards psychological vision.

### “Characters of Sub Conscious Mind”

- ✦ There are three types of minds. It is a conception of intelligence peoples and ancient belief. It is left the individual intelligence people to accept and decide which is right or wrong. It is a matter of difficulty to decide the feelings and parts of the mind it is a matter of concern. The man’s mind runs in the direction of physical developments. Apart from that stars and planets rotation. Mind means as per mental science is depending upon the influence of stars and planets whenever there is conflict of situation. Whenever the mind is not able to take proper decision it is possible that man becomes psychic. Or whenever mind comes into contact with other mind then it becomes a tragedy. Then we can see in the changes in man. Initial that means when the human being takes birth it came to know there is some default in the mind; the mind grows to the height and grows on increasing the thinking capacity. The important fact to be aware is his thinking power is of whatever height or may be a big intelligent man; he thinks highly beautifully, his ignorance also follows him. Then mind of such people leads to illusion. But the man who doesn’t become anxiety means his is soul. If the mind gets disheartened during day or night are sleeping the works which were planed earlier comes into his un conscious mind are seen in the form of dreams. This called mental science.

#### 1) Situation of Conscious mind:

- ✦ The man who behaves with his knowledge that is called as Conscious knowledge. That means the man should work with all is ability with the co operating of the other person he should understand that man and then talk to others. That type of man called as conscious able person. Even though who is knowledge able behaves erratically there are such human groups. In that first one is, the man who things himself very intelligent by breading other people books, behaves exhibits Ego. Such peoples are also called Psychiatrist. Because he has knowledge of what is going around him. Sub conscious mind exits even before the baby comes out of the womb. Also it is included in the birth chart. The whole life of the baby is mentioned in the horoscope. Because it is the secrete of universe.

### “There are mainly two divisions in the conscious Mind”

- 1) *Inner mind.*
- 2) *External mind.*

- *Inner mind always sends doubtful messages to brain, that means messages are sent by automatically called auto suggestion. And the outer mind is concentration the on the person who is in front of you.*
- *Naturally everybody has drawback’s*
- *Everybody is psychic.*
- *In common psychic patients are seen who does work with number and figures. That means they behave like this. If you look at that, on the life world making deep study and if you study about the planets or horoscopes the inner mind is understood. The sand of the ruins, shaking hand and legs, losing control over speech, speaking loudly, speaking very slowly, maximum angry, minimum patience, hunting things which are kept in hidden, miss announcement of words in tongue, losing sperm in dream, symptoms of falling down in sleep those these are all psychological problems but they are the default of our birth. But, though they are scientifically removed they repeat again.*

# IJETRM

## International Journal of Engineering Technology Research & Management

- In those who are physically handicapped it is found they are mentally weak and mentally problems.
- Each and every woman has defects. Low mentality is observed in women after the deep study. Always their thoughts and actions lay below the normal level.
- Psychology tells one among every five has mentally problems. But as per my investigation everybody is psychic.
- When a man is sleeping he gets different dreams. Here body remaining normally soul is working. But, on the surface we see that body is working.
- Every man is having psychic symptoms.

### Conclusive:

- *Psychology means giving birth to a problem. A man laughs alone only himself. Sometimes there will be soliloquy. Apart from he goes on singing. But is not a psychological problem. group of people means speaks about me that is the doubt each man gets. After cross checking this psychiatrist exhibits it out. Till such period he will not understand those people talk about himself. Really those people have not at all discussed about him. This psychiatrist will create this as a problem by miss interpreting.*
- *Technician, musician and science are the shame. Really if all the above two seen as scientifically illation, there are scientific views merged in Technician, musician. The foundations of a science are Technician and musician. Scientific thinking is the foundation Technician, musician knowledge we cannot give simply one and two examples to say these are Technician, musician foundation. It means we cannot say that science as foundation of Technician, musician in one word.*
- *Some will negate Technician, musician knowledge. Some others will consider this. Conscious and un conscious mind are the birth of space. That means they are all related to natural rules. Each mans planning and thinking and thinking of all animals and birds related to planets, zodiac, and stars. The human being is depending upon the moment of planets, stars and zodiac. Basically our activities practically compare they are like planets, zodiac, and stars.*
- *Some Philosophers and Scientist after observing human being and his activity some psychological and brittle investigation are identified. The reason is naturally completely zero. After observing human being and his activity for his unhealthy mental status totally is a miss conception. Because, in natural stage harsh words, rough behavior, stigma, it is unbearable, after identifying anger and temper it is not good to subject it for a psychological treatment. Above facts naturally they emerge out of and because of five basic ailments. Brittle thoughts, brittle activities are not created by man. Those are not called as problems. When the TV is in on position it immediate connects to satellite, similarly in human beings brittle and un brittle ideas are produce by the moment of planets. Because, sea also behaves according to the behavior of planets.*

### Case Study No 01:

**Patient Name: Hanumanthi Kammar**

**Age: 23**

**Town: Sirsi, Karnataka State, India**

**Description:** Hanumanti aged 23 years didn't menstruation from last 12 years. She went to so many big hospitals to understand her problem. Those doctors and Psychiatrists were not able to find out the reason for this disease. But those doctors gave treatment to this girl thinking that she is having problem in womb. Even then she didn't get any solution to her problem last 12 years. she became mentally upset. After that it was not possible to cure her mental disease.

**Conclusive:** After all this she came to our Monastery. It was observed by me it is not a physical ailment. And came to know that some un natural (Shree Naga Choudeshwari goddess) is staying in her body. Finally I discussed with Shree Naga Choudeshwari goddess and cleared Ganumanti's mentally and physically problems.

### Case Study No 02:

**Patient Name: Shilpa Harikantra**

**Age: 27**

# IJETRM

## International Journal of Engineering Technology Research & Management

**Town: Gokarna, Karnataka State, India**

**Description:** Shilpa aged 27 years a lady from last 4 years was suffering from mental ill health. Along with this she had irregular menaces problem. Her activity and her behavior indicated that she is mentally upset. She went to many hospitals and consulted the doctors and Psychiatrist and was not cured completely. She use to suffer from ill health every month. She faced problems like fever, headache, cough, stomachache and white menaces. This was problem for this lady from last 4 years. it was declared by all the doctors, Psychiatrist as Shilpa is mentally desalted patient.

**Conclusive:** After all this she came to our Monastery. It was observed by me it is not a physical ailment. And came to know that some un natural (Shree Naga Yakshi goddess) is staying in her body. Finally I discussed with Shree Naga Yakshi goddess and cleared Shilpa's mentally and physically problems.

**Case Study No 03:**

**Patient Name: Nikitha Hadimani**

**Age: 29**

**Town: Davangere, Karnataka State, India**

**Description:** Generally friend Nikita used to feel quit all right with her physical condition or well being in the morning. But she felt that she was becoming obese in the evenings. This special feeling arises due to the reason of sun's Rays. Generally this Psychological disorder appears also in persons who are thin of fat due to exposure to Sun's Rays. It is generally observed that a person suffering from fever is quite comfortable during the day and starts feeling the pain or suffering during the evenings or in the night times. Many people or persons have no answer to these views. This will be known to an intuitive researcher. The same will be understood or learnt by a person on deep inspection. Till then, these conditions will remain in the dark. The design and knowledge of a man's personality also will develop in accordance with the rise of the Sun. the Sun's Rays fall on the bodies of persons, pinch and penetrate there by creating strength, inducing energy and creativity, to develop, to think and to improve thinking, towards better creativity. Due to this, the person transmutes strength and assimilates energy with the body. The knowledge also improves that came out of the humours. This will increase the light of the person-his or her physical orb of presence and influence. This will remain active till sunset. After that, the body starts losing energy as it endures less matter waves which decrease its activity. It becomes prone to the attacks of viruses making it vulnerable to contagious diseases and infections. There are more chances therefore to the person becoming vulnerable to infection and attack from diseases.

If anyone has made any sort of black magic spell or witchcraft on such type of a person, the ill effects will increase in that time. Possession effect on innocent Nikita and the administration of Psychology medicines or tablets to her by her mother became an experiment of possession. It may be administration of tablets or acts of witchcraft of black magic or it might be a natural process or due to the food items or due to any other activity-the repercussions and the results do hamper in different ways and bear influence such types of cases and must have knowledge about that.

**More Examples:** Thinking that Nikita is my step daughter or thinking that Nikita is observing her (mother's) illicit relationship since she is 4 year old, she (mother) use to feed her slow Poisonous meals and used to provide her drug twice a day which makes psychologically unconscious, so Nikita's stomach become enlarging at night and back to normal position in seeing the sunshine. When sunshine disappears her stomach become enlarged severely, this is going to happen daily at the fall of dark pimples appeared on her body with symptoms.

In this stage her mother started witchcraft on her daughter this caused negative result on her body. Kethu (one of the planet in astrology science) effect started on her body. Kethu refers to one of the powerful planet in the geography, it is still undiscovered with the help of science and technology on body discovering so far.

However At the time when Kethu is in revolution, if we perform witchcraft surely it uses to give negative impact, Nikita Experienced, Kethu's impact continuously for 7 years. After the end of Kethu period, she never suffered from stomach enlargement fatness's, pimples because of psychologically drugs.

Well she suffered from the stomach enlargement and spell of witchcraft only in the absence of sunshine at mean at fall of dark. Because of physiologically drug on her body fatness, stomach enlargement as a result she undergone psychological sickness, because of the effect of sunshine and witchcraft she begin to scared devils and evil spirits and even she scared her mother. Because least distant of Neptune from moon, she suffered from peculiar types of dreams. She travelled for

# IJETRM

## International Journal of Engineering Technology Research & Management

off places in her dreams. Mercury planet was at least distant from their so because of misunderstanding she exchange of dialogues and quarrel with me. She argued that whatever she tells is correct. On the other hand Jupiter planets was close to earth because of improper position of planet Jupiter and as a result of both the reasons above described she was rejected by the society as she is mental not stable.

Many Psychologists told that she is suffering from the psychological sickness. But after disappearing or proper position of Kethu planet. She overcomes from sickness. This was big question psychologist but not for Nikita. Psychologist drugged her without identifying the diseases.

She gradually understands her mother's cunning act and maintained distance from her mother. Actually we can understand hence that she is not psychic but her mother because she was in danger of unveiling of her illicit relationship. Finally her mother herself was suffered from the serious diseases at the time of disappear sunshine. Again she uses to become well and healthy in the morning.

Another Example: another friend was suffering from the psychological diseases and was under treatment. She was acting as if an evil spirit has admitted in her body. No psychiatrist can understand this they think that she is suffering from hallucination, so they are treat her with psychological drugs since 4 years. But she never comes out from her diseases. She use to fell unconscious again and again because of an evil spirit in her body, because of Neptune was in the 8<sup>th</sup> cell and there was another sinful planet beside Neptune.

Beside another spirit entered in her body she fell unconscious again and again that spirit lead her to do this act, but no psychiatrist discovered this when Saturn vision disappeared she healed, she never healed by the Psychiatrist treatment.

**Investigative Duration: 04 Years.**

.....

### Case Study No 04:

**Patient Name: Prem Kumar Shindhe**

**Age: 29**

**Town: Hubli, Karnataka State, India**

**Description:** Prem aged 29 years quarreled with is family members and came to our Monastery. That person was taking drugs from last 5 years. He was having the daily habit of masturbation. To told me this during conversation and counseling. He didn't get any good answer and solution from the doctors and psychiatrist. Psychological and mental disorders were not cured. When he was alone used to close the door and commit suicide, he was advancing to kill his parents with a sword and he use to quarrel with his neighbors.

**Conclusive:** After some days he came to our Monastery. I examined him and enquired him and found he was suffering from un natural ailments like demon. One of the bad demon discussed with me. Then this demon went out office body. He came out of his mental disorder. And he left consuming drugs completely.

### Case Study No 05:

**Patient Name: Mahendra Baalambeed**

**Age: 31**

**Town: Hirekerur, Karnataka State, India**

**Description:** Mahendra aged 31 years he was suffering from psychic problem from last 7 years. Once he came to with his brother our Monastery. That person was taking drugs from last 7 years. To told me this during conversation and counseling. He didn't get any good answer and solution from the doctors and psychiatrist. Psychological and mental disorders were not cured. When he was alone used to close the door and commit suicide, he was advancing to kill his parents with a sword and he use to quarrel with his neighbors.

**Conclusive:** After some days he came to our Monastery. I examined him and enquired him and found he was suffering from un natural ailments like Cobra. One of the Cobra discussed with me. Then this Cobra went out office body. He came out of his mental disorder. And he left consuming drugs completely.

## International Journal of Engineering Technology Research & Management

**Case Study No 06:****Patient Name:** Darshan Navale**Age:** 29**Town:** Hanagal, Karnataka State, India

**Description:** Darshan Aged 29 years he is software engineer. And he was suffering from psychic problem from last one and half years. And he left his house after going depression of mind. To told me this during conversation and counseling. He didn't get any good answer and solution from the doctors and psychiatrist. Psychological and mental disorders were not cured. When he was alone used to close the door and commit suicide, he was advancing to kill his parents with a sword and he use to quarrel with his neighbors.

**Conclusive:** After some days he came to our Monastery. After counseling that man we came to know that he is under the influence of black magic. Came to know his own lover mesmerized him. Above all his neighbors also influence him by black magic. Finally I came into contact with that man and cured him by proper counseling and using divine powers.
